General Description:

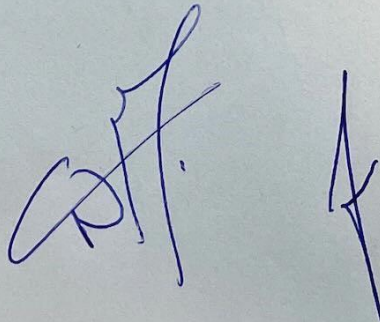

BIAT recognizes that the NGO is committed as an organization to the laws, regulations, and other policy mechanisms concerning environmental issues.

Description:

BIAT recognizes that it has a responsibility to the environment beyond legal and regulatory requirements. We are committed to reducing our environmental impact and continually improving our environmental performance as an integral part of our business strategy and operating methods. We will encourage customers, suppliers and other stakeholders to do the same.

Activities include but are not limited to:

- To comply with environmental legislation and other requirements
- To spread the importance of environmental issues to your business
- To minimize our impact on the environment and cutting pollution and waste
- To buy materials and resources that come from renewable sources
- To reuse or recycle our waste, or pass it on to other businesses to use as a resource
- To involve employees and other stakeholders in sustainable development
- To raise awareness, encourage participation and train employees in environmental matters
- To participate in discussions about environmental issues
- To communicate environmental aims and objectives to employees and external stakeholders
- To agree to commit to environmental principles and continual improvement at the highest level in our NGO
